BIOPHARMACEUTICS & DRUG DISPOSITION
(*Biopharm. drug dispos.*)

CONTENTS

VOLUME 11, ISSUE NOS. 1–9 (1990)

Issue No. 1, January–February

RESEARCH ARTICLES

A Single and Multiple Dose Pharmacokinetic and Metabolism Study of Meclofenamate Sodium: J. R. Koup, E. Tucker, D. J. Thomas, A. W. Kinkel, A. J. Sedman, R. Dyer and M. Sharoky 1

Effect of Dietary Fat Content on the Bioavailability of a Sustained Release Quinidine Gluconate Tablet: M. N. Martinez, F. R. Pelsor, V. P. Shah, J. P. Skelly, I. L. Honigberg, S. M. Hemingway, J. M. Gallo, J. A. Kotzan, R. Zaman, W. J. Brown and S. Cliett 17

Absence of Effect of Food on Alprazolam Absorption from Sustained Release Tablets: M. G. Eller and A. A. Della-Coletta 31

Simulation of the Hepatic Metabolism of Stilbene and its Tricyclic Derivatives by Fenton and Ruff Reagents: Models for Cytochrome P-450 Activation of Chemical Carcinogens: S. Zbaida and R. Kariv . 39

Absorption and Disposition Kinetics of Chlorothiazide in Protein-Calorie Malnutrition: D. Jung, H. di Lam and M. Chu 53

A Computer Simulation of the Food Effect: Transient Changes in Hepatic Blood Flow and Michaelis-Menten Parameters as Mediators of Hepatic First Pass Metabolism and Bioavailability of Propranolol: H. A. Semple, Y. K. Tam and R. T. Coutts 61

Bioequivalence of Two Pharmaceutical Forms of Diltiazem: M. Rubio, M. I. Masana, E. Garcilazo, A. R. de los Santos and G. di Girolamo . 77

Absolute Bioavailability of Terbutaline from a CR-Granulate in Asthmatic Children: G. Fuglsang, B. Hertz, E. Bettina Holm and L. Borgström 85

ANNOUNCEMENT

Fourth European Congress of Biopharmaceutics and Pharmacokinetics (Geneva: April 17–19, 1990) 91

Issue No. 2, March

RESEARCH ARTICLES

Absorption of Doxycycline From a Controlled Release Pellet Formulation: The Influence of Food on Bioavailability: D. B. Williams, W. J. O'Reilly, G. Boehm and M. J. Story 93

BDDID8 1–824 (1990) ISSN 0142-2782

A New Approach to Pharmacokinetic Parameters: Estimation of Cefuroxime During Haemodialysis: E. Sánchez, C. Ma Evora, A. Torres and M. Llabrés 107

The Disposition of Cytosine Arabinoside and its Metabolite After Single Doses to Rabbits: C. L. Zimmerman 121

Dose Dependent Pharmacokinetics of *N*-Acetylcysteine After Oral Dosing to Man: L. Borgström and B. Kågedal 131

Influence of Food on the Bioavailability of Diltiazem and Two of its Metabolites Following the Administration of Conventional Tablets and Slow-Release Capsules: P. du Souich, N. Lery, L. Lery, F. Varin, S. Boucher, M. Vezina, D. Pilon, J. Spenard and G. Caillé 137

Pharmacokinetic Analysis of Absorption and Metabolism of Dopamine and a Dopamine Prodrug in Dogs: K. Murata, K. Noda, K. Kohno and M. Samejima 149

Effect of Nifedipine on Antipyrine and Theophylline Disposition: G. I. Adebayo and A. F. B. Mabadeje 157

Bioavailability of a New Sustained-Release Theophylline Capsule in Fasted and Non-Fasted Healthy Subjects: Single and Multiple Dosing Studies: R. J. West, G. Boehm, M. Dwyer, D. B. Williams, L. N. Sansom and A. C. Penna 165

SHORT COMMUNICATION

Mean Residence Time and the Meaning of AUMC/AUC: M. D. Karol . 179

ANNOUNCEMENT

Fourth European Congress of Biopharmaceutics and Pharmacokinetics (Geneva: April 17–19, 1990) 183

Issue No. 3, April

RESEARCH ARTICLES

Diphenhydramine Kinetics Following Intravenous, Oral, and Sublingual Dimenhydrinate Administration: J. M. Scavone, B. E. Luna, J. S. Harmatz, L. von Moltke and D. J. Greenblatt 185

Multiple-dose Propranolol Administration does not Influence the Single Dose Pharmacokinetics of Quinapril and its Active Metabolite (Quinaprilat): A. M. Horvath, D. Pilon, G. Caillé, W. A. Colburn, J. J. Ferry, G. J. Frank, Y. Lacasse and S. C. Olson 191

Influence of Lovastatin on the Pharmacokinetics, Toxicity and Immunologic Response of Cyclosporine in the Obese Zucker Rat: K. L. Berens, K. Vadiei, L. L. Brunner, K. M. Wasan and D. R. Luke 197

Intramuscular Administration of Atropine in the Rat: Jet Spray Versus Conventional Needle Injection: C. N. Lieske, B. J. Lukey, I. J. Hayward, R. T. Gepp and H. G. Meyer 207

Effects of Dose and Sex on the Pharmacokinetics of Piroxicam in the Rat: L. K. Roskos and F. D. Boudinot 215

Pharmacokinetics of the Acetylcholinesterase Oxime Reactivator, HI-6 in Rhesus Monkeys (*Macaca mulatta*): Effect of Atropine, Diazepam, and Methoxyflurane Anesthesia: J. G. Clement, M. J. Lee, K. J. Simons and C. J. Briggs 227

Absorption and Disposition of a New Low-dose Combination Formulation of Hydrochlorothiazide and Triamterene: R. L. Williams, E. T. Lin, W. Liang-Gee, C. D. Blume and L. Z. Benet 233

First-pass Metabolism of Acetaminophen in Rats after Low and High Doses: J. Hirate, C.-Y. Zhu, I. Horikoshi and V. O. Bhargava . . 245

Pharmacokinetic and Pharmacodynamic Studies in Man with an Antianginal Agent 'Visacor': I. D. Cockshott, J. McAinsh and S. Norris . 253

Pharmacokinetics and Absolute Bioavailability of Ibuprofen after Oral Administration of Ibuprofen Lysine in Man: W. Martin, G. Koselowske, H. Töberich, Th. Kerkmann, B. Mangold and J. Augustin 265

Issue No. 4, May–June

RESEARCH ARTICLES

Pharmacokinetic Aspects of the Sublingual Administration of Vincamine: J.-M. Aiache, M.-C. Delatte, P.-P. Leblanc, J.-P. Kantelip, R. Gomeni and J.-L. Steimer 279

Pharmacokinetics of Morphine and its Surrogates X: Analyses and Pharmacokinetics of Buprenorphine in Dogs: E. R. Garrett and V. R. Chandran. 311

Analysis and Stereoselective Metabolism After Separate Oral Doses of Tocainide Enantiomers to Healthy Volunteers: K.-J. Hoffmann, L. Renberg and O. Gyllenhaal 351

Oxcarbazepine Disposition: Preliminary Observations in Patients: A. Kumps and C. Wurth 365

Issue No. 5, July

Effects of Cefotaxime on the Serum Protein Binding of Sulfisoxazole: P. du Souich, R. Calvo and S. Erill 371

Activation of Beclomethasone Dipropionate by Hydrolysis to Beclomethasone-17-Monopropionate: G. Würthwein and P. Rohdewald 381

Effects of Inducers and Inhibitors of Mixed-function Oxidases on the Biliary Excretion of Pentacaine Metabolites: M. Kukan, Š. Bezek, V. Ščasnár, M. Ďurišová and T. Trnovec 395

Kinetics of Biliary Elimination of Pentacaine in Rats: Š. Bezek, V. Ščasnár, M. Kukan and T. Trnovec 403

Elevation of Carbamazepine Plasma Levels by Diltiazem in Rabbits: A Potentially Important Drug Interaction: M. S. Al-Humayyd . . 411

Pharmacokinetics of Morphine and its Surrogates XI: Effect of Simultaneously Administered Naltrexone and Morphine on the Pharmacokinetics and Pharmacodynamics of Each in the Dog: P. Langguth, P. J. Khan and E. R. Garrett 419

Species Differences in the Pharmacokinetics of Recainam, A New Anti-Arrhythmic Drug: J. A. Scatina, H. B. Kimmel, V. Weinstein, S. M. Troy, S. F. Sisenwine and M. N. Cayen 445

ANNOUNCEMENTS 463

Issue No. 6, August–September

REVIEW ARTICLE

Microbially Controlled Drug Delivery to the Colon: A. Rubinstein . 465

RESEARCH PAPERS

MODFIT: A Pharmacokinetics Computer Program: G. D. Allen . . 477

Oxidative versus Conjugative Biotransformation of Temazepam: A. Locniskar and D. J. Greenblatt 499

The Relationship Between the Pharmacokinetics of Ibuprofen Enantiomers and the Dose of Racemic Ibuprofen in Humans: A. M. Evans, R. L. Nation, L. N. Sansom, F. Bochner and A. A. Somogyi . 507

Disposition of Fluvastatin, an Inhibitor of HMG-COA Reductase, in Mouse, Rat, Dog, and Monkey: F. L. S. Tse, H. T. Smith, F. H. Ballard and J. Nicoletti 519

Pharmacokinetics of Aditoprim in Goats Using a Radioassay: M. P. Iqbal, N. Mahboobali, S. K. Niazi and M. A. Mahmood . . . 533

Pharmacokinetics and Safety of Single Oral Doses of Lomefloxacin: I. S. Morse 543

BOOK REVIEWS 553

ANNOUNCEMENTS 555

Issue No. 7, October

RESEARCH PAPERS

Pharmacokinetics of Promazine: I. Disposition in Patients with Acute Viral Hepatitis B: O. Y.-P. Hu, H.-S. Tang, T.-Y. Sheeng, S.-C. Chen, S.-K. Lee and P.-H. Chung 557

Bioavailability and Cardiovascular Safety of Dexatrim® (Phenylpropanolamine Hydrochloride) from a Controlled-release Caplet: L. Shargel, H. I. Silverman, P. Cohen, J. Brisson and S. Dennis 569

Biopharmaceutical Evaluation of Carprofen following Single Intravenous, Oral and Rectal Doses in Dogs: M. Schmitt and T. W. Guentert 585

Dextran Sulfate Disposition in the Rat: B. C. Foster, K. D. Gallicano, L. W. Whitehouse, I. J. McGilveray and S. R. Khan 595

Pharmacokinetics of Pafenolol after IV and Oral Administration of Three Separate Doses of Different Strength to Man: C. G. Regårdh, A. Heggelund, K. Kylberg-Hanssen and P. Lundborg 607

Pharmacokinetics of Pafenolol in the Rat: A Suitable Model for Studying Absorption Mechanisms of a Drug Exhibiting Unusual Absorption Properties in Man: H. Lenneräs and C. G. Regårdh 619

SHORT COMMUNICATIONS

The Effect of UVB-induced Erythema on the Percutaneous Absorption of Minoxidil from an Aqueous Topical Solution: J. J. Ferry, K. K. Forbes, J. H. Shepard and T. L. Hunt 633

Does Restriction of Caffeine Intake Affect Mixed Function Oxidase Activity and Caffeine Metabolism? Y. Caraco, E. Zylber-Katz, L. Granit and M. Levy 639

ANNOUNCEMENTS 645

Issue No. 8, November

REVIEW ARTICLE

Regional Pharmacokinetics I. Physiological and Physicochemical Basis: R. N. Upton 647

RESEARCH PAPERS

Assay of Glyceryl Trinitrate, Isosorbide Dinitrate, and Their Metabolites in Plasma by Large-Bore Capillary Column Gas-Liquid Chromatography: B. P. Booth, B. M. Bennett, J. F. Brien, D. A. Elliott, G. S. Marks, J. L. McCans and K. Nakatsu 663

Placental Transfer and Tissue Distribution of Vitamin E in Pregnant Rabbits: A. Bortolotti, G. L. Traina, M. M. Barzago, A. Celardo and M. Bonati 679

Pharmacokinetic Modelling of the Plasma Concentration-Time Profile of the Vitamin Retinyl Palmitate Following Intramuscular Administration: D. Hartmann, D. Gysel, U. C. Dubach and I. Forgo . . 689

Pharmacokinetics of Midaglizole, a New Hypoglycaemic Agent, in Healthy Subjects: H. Nomura, F. Yamada and H. Hakusui . . 701

Effect of Food on the Bioavailability of Adinazolam from a Sustained Release Formulation: Effect of Meal Timing and Lack of Dose Dumping: J. C. Fleishaker, J. P. Phillips and H. S. H. Lau . . . 715

SHORT COMMUNICATIONS

Influence of Liquids (Coffee and Orange Juice) on the Bioavailability of Tetracycline: H. Jung, O. Rivera, M. T. Reguero, J. M. Rodriguez and R. Moreno-Esparza 729

Interaction of Ethanol, Quinidine, and Sparteine with the Metabolism of Nifedipine by *Cunninghamella Echinulata*: B. C. Foster, D. L. Wilson and I. J. McGilveray 735

ANNOUNCEMENT 739

Issue No. 9, December

REVIEW ARTICLE

Regional Pharmacokinetics II. Experimental Methods: R. N. Upton, W. B. Runciman and L. E. Mather 741

RESEARCH PAPERS

The Influence of Hepatic Cirrhosis on the Pharmacokinetics of Benazepril Hydrochloride: G. Kaiser, R. Ackermann, H. P. Gschwind, I. M. James, D. Sprengers, N. McIntyre, A. DeFalco and I. B. Holmes . 753

Pharmacokinetics of Sulfamethoxazole and Trimethoprim in Mexicans: Bioequivalence of Two Oral Formulations (URO-TS D® and Bactrim F®): F. J. Flores-Murrieta, G. Castañeda-Hernández, J. C. Menéndez, F. Chávez, J. E. Herrera and E. Hong 765

Disposition of Phenytoin in Analbuminemic Rats: J. Hirate, I. Horikoshi and S. Nagase 773

Pharmacokinetics of Urinary Metabolites of Cannabidiol in the Dog: E. Samara, M. Bialer and D. J. Harvey 785

Pharmacokinetics of Dibenzylamine Administered in a Sustained Drug Delivery System with Cefazolin: M. B. Calvo, J. L. Pedraz and A. Dominguez-Gil 797

Absorption of a Pharmacological Dose of Vitamin D_3 from Two Different Lipid Vehicles in Man: Comparison of Peanut Oil and a Medium Chain Triglyceride: I. Holmberg, L. Aksnes, T. Berlin, B. Lindbäck, J. Zemgals and B. Lindeke 807
